

MISAEI VILLAVEERDE

misaelvilla10@gmail.com ◇ potifar.dev

OBJECTIVE

Backend Engineer (Golang) seeking for closed or open source projects to contribute on.

SKILLS

Technical Skills.

Go, TypeScript, SQL, NoSQL, pretty much language agnostic.

Backend Development: Golang, Node.js (TypeScript), Firebase, CapRover, Supabase, etc.

Databases: Microsoft SQL Server, MySQL, MongoDB, PostgreSQL, SQLite, Redis.

Frontend Development: SwiftUI on iOS/macOS and Next.js on the web.

Cloud experience: Google Cloud Platform and Azure.

Languages. Spanish: Native, English: Professional proficiency.

EXPERIENCE

FullStack Software Developer (Main backend)

Jun 2020 - Nov 2020

HypernovaLabs

Panamá, Panamá

- Backend development with .NET, MSSQL, Node.js, MongoDB, Go, and Python Flask.
- Deployments to Azure services using Docker to containerize web apps and Rest APIs.
- Frontend development with React and React Native.

FullStack Software Developer (Main backend)

Nov 2020 - today

Transmira Inc.

North Carolina, United States (remote)

- Main Dev at the team responsible for OmniscapexR web platforms (VR, AR).
- Worked with 3D on the web technologies such as deck.gl and h3.js (uber team).
- Built the 3D Marketplace for items compatible with the OmniscapexR Platforms and for the Virtual Real Estate Platforms.
- Built the Core Services API in golang to handle authenticated requests and CRUD + Ad Hoc operations for all 3 Apps (desktop, mobile and web).
