MISAEL VILLAVERDE

misaelvilla10@gmail.com ⬦ potifar.dev

OBJECTIVE

Backend Engineer seeking for great projects to contribute on.

SKILLS

Technical Skills.
Most proficient with Go and TypeScript, but I'm pretty much language agnostic.
Have also worked with C# and Python, played with Rust and OCaml, and finished courses on C++ and Java.

Backend: Golang, Node.js, CapRover, Supabase, Firebase and more.
Databases: Microsoft SQL Server, MySQL, MongoDB, PostgreSQL, SQLite, Redis.
Frontend: SwiftUI on iOS/macOS and Next.js, Alpine.js on the web (also full SSR with HTMX and Go).
Cloud experience: Google Cloud Platform and Azure.

Languages. Spanish: Native, English: Professional proficiency.

EXPERIENCE

FullStack Software Developer (Main backend)   Nov 2021 - today
Transmira Inc.   *North Carolina, United States (remote)*

- Main Dev at the team responsible for OmniscapeXR web platforms (VR, AR).
- Worked with 3D on the web technologies such as deck.gl and h3.js.
- Built the 3D Marketplace for items compatible with the OmniscapeXR Platforms and the Virtual Real Estate Platforms.
- Built the Core Services API in golang to handle authenticated requests and CRUD + Ad Hoc operations for all 3 Apps (desktop, mobile and web).

FullStack Software Developer (Main backend)   Jun 2021 - Nov 2021
HypernovaLabs   *Panamá, Panamá*

- Backend development with .NET, MSSQL, Node.js, MongoDB, Go, and Python Flask.
- Deployments to Azure services using Docker to containerize web apps and Rest APIs.
- Frontend development with React and React Native.
